

# HPM *Corporation*

HPM Corporation (HPMC) was founded in July 2001 by Hollie P. Mooers. Ms. Mooers recognized a growing need to provide quality, cost-effective occupational medicine, occupational safety and health, and project management services. Ms. Mooers now serves as Board of Directors, Chair. HPMC specializes in support services customized to the individual needs of each client in the fields of:

## Core Competencies

- Occupational Medicine
- Occupational Safety & Health
- Health Care Management
- Project Management
- Emergency Preparedness
- Risk Communication
- Behavioral Health & Employee Assistance Services
- Industrial Hygiene
- Environmental Safety & Health
- Quality Assurance/Quality Engineering
- Corrective Action Management
- Performance Assurance
- Ergonomic Services
- Work Conditioning and Industrial Rehabilitation
- Population Health Analysis & Legacy Health Management
- Medical Surveillance Program for Beryllium
- Legacy Tank Waste Medical Surveillance Program

## Differentiators

We are a principal entity in an occupational health services contract at the largest environmental remediation site in the United States. HPMC has direct responsibility and accountability for program performance and delivers comprehensive occupational health services to over 18,000 employees working in various situations involving radiation and hazardous materials. These are core competencies not typically found in small business but are demonstrative of the experience and caliber of HPMC professionals.

## Recognition & Performance

MSA -Mission Support Alliance  
AVS folks go out of their way to provide customers outstanding service with procurements, inspections, and inquiries.

### NASA MSFC

“Every single person who works in the medical center makes me feel as though I’m the most important “customer” there. It is greatly appreciated.”

“One year ago, yearly physical found that my heart was in atrial fibrillation and future testing shows a valve leakage. Last February (6 months later) I had surgery and glad to report I’m back to 100%. I had no signs and symptoms that anything was wrong. So BIG THANKS to the staff and doctors!!”

“This is an extremely useful benefit provided by the Center, one which directly and positively impacts the health of the workforce. Caring in action.”

### General comment of Thankfulness for the services provided by the Medical Center.

For a few years I was informed of a rising medical level and advised to seek a specialist...cancer was found. If it had not been for the screening I am sure I would not have gotten checked.

Kudos for efforts to find another use for waste and saving tens of thousands of dollars.

### Hanford OMS

“I felt the PA-C I saw was legitimately concerned for my wellness. Her “bedside manner” was exceptional.”

“I’m EXTREMELY critical of medical facilities...I expect the best from the medical personnel that treat me and your facility delivered. Thank you for creating such a great environment to be a patient.”

“I had a fabulous experience in the clinic. Everyone was courteous, professional and I was out of there in record time!”

“I personally do not like the breathing test. The nurse took exceptional care helping me with proper posture & strategy – she was excellent.”
